Understanding Tradelines

Tradelines refer to your business's payment history with creditors, such as banks, lenders, and vendors. Each tradeline provides information about the

amount of credit extended, payment status, and overall credit performance. Your business's credit score is largely based on the aggregate of all positive and negative tradelines.

Primary Tradeline Solutions Services

Through tradeline funding, businesses can establish new tradelines or supplement existing ones with positive payment history. Primary Tradeline Solutions partners with reputable creditors to provide unsecured lines of credit ranging from \$5,000 to \$100,000 that are reported to major credit bureaus (Experian, Equifax, and TransUnion).

2. Credit Repair

For businesses with negative tradelines or credit history issues, Primary Tradeline Solutions offers credit repair services to dispute inaccurate or outdated information, potentially improving credit scores and overall creditworthiness.
